

FIRE ESCAPE PLAN

Household Members

Write their name and age inside the icon.

Pets

Write their name and species inside the icon..

Meeting Spot

Members Who Need Assistance

Include who will help the member get out of the house safely and how.

Safety Reminders

- Smoke kills. Do not get up and run when your smoke alarm goes off. **Crawl on the floor to the door.** Smoke rises and it will be easier to breathe on the floor.
- Check with the back of your hand if the door is hot before opening it. If the door or handle is hot – do not open the door! Find another exit.
- **Don't hide.** Firefighters cannot help you if they cannot find you. Call out and make as much noise as possible.
- **Get out and stay out!** Never go back inside a burning building for anything.
- **Call 9-1-1** from a cell phone or neighbor's phone.
- Account for every family member at the meeting spot and report any missing members to the fire department and their last known location.

HOUSE MAP

Include every door and window and highlight two exits in every room.

A large grid of dots for drawing a house map. The grid consists of 25 columns and 30 rows of dots.
