

Vote April 5

T.I.M.E. for Stillwater

On the ballots in April, Stillwater voters will see a bond proposition for Fire Station #2. The current station is not a safe or healthy environment for our firefighters and the location inhibits emergency response times.

Location: Fire Station #2 is located at Campus Corner (600 W. University Ave.), a high-traffic area with no traffic lights. Oklahoma State University owns the building, it is on the National Register of Historic Places, and it will be preserved.

Condition: The station does not have an exhaust capture system to remove diesel fumes from inside the facility working and living areas. Other concerns include foundation issues, lead paint, asbestos, poor insulation, gaps around doors, difficult to heat and cool, no co-ed facilities, and lack of dining area, showers, and sleeping spaces.

Fire stations are utilized to house personnel and equipment, to ensure emergency preparedness and fastest response times. Stillwater Fire Dept. protects our families, homes, and businesses by extinguishing fires. They also respond to emergency medical needs, hazardous materials removal, and provide fire prevention education.

Together, we can continue improving our hometown by increasing **safety efforts** and **quality of life for everyone!**

"We all want to live in a safe community where citizens are efficiently served and resources are managed responsibly. Together Investing in Municipal Excellence means a brighter future for Stillwater and its residents," said Stillwater City Manager Norman McNickle.

The proposition requires a majority vote to pass.

Early voting: March 31 & April 1, 8 a.m.-6 p.m.

Election Day: Tuesday, April 5, 7 a.m.-7 p.m.

Fire Station #2 Architectural Rendering
Design features may change slightly. New location would be on Western Rd., north of McElroy Rd.

Fire Station #2 Tours

**Monday, March 21,
12-12:30 p.m.**

**Wednesday, March 23,
5-5:30 p.m.**

**Tuesday, March 29,
4-4:30 p.m.**

**Thursday, March 31,
7:30-8 a.m.**

**Monday, April 4,
12-12:30 p.m.**

*Tours are approximately
30 minutes.*

Approximate annual property tax increase
for a 20-year bond of \$9 million.

\$100,000 House	\$12.62/year
\$150,000 House	\$24.30/year
\$200,000 House	\$32.90/year
\$250,000 House	\$41.50/year
\$300,000 House	\$50.10/year
\$350,000 House	\$58.71/year
\$400,000 House	\$67.31/year
\$450,000 House	\$75.91/year
\$200,000 Rental	\$34.41/year
\$1,000,000 Commercial	\$172.04/year

The new station would be funded through a General Obligation (GO) Bond, paid by property tax (ad valorem tax). In Oklahoma, this tax is levied in mills against taxable real, personal and public service property. A mill is one dollar per thousand dollars (\$1/\$1,000) of the taxable property value.

GO Bonds are the most common way cities pay for large public projects and how Stillwater has paid for most fire stations in the past. The previous City bond of \$14.7 million was paid in full June 2021. Currently, we are not paying for an outstanding bond with the City of Stillwater.
